

Warmaster Ancient Armies Errata

P16 The Peloponnesian War List.

Horse Archers Option is given as a +10 point upgrade. It should be +20 points (60 points cost for Horse Archers).

P25 The Celtiberian List.

The Warband Option for Warriors should be a -5 point reduction rather than 'Free'. 35 points is the standard cost for Light Infantry without the skirmish rule.

P42 The Sarmatian List.

In the Options for Black Sea Sarmatians, the Black Sea Light Infantry should have an Armour value of '-' and not 6. They then have the correct stats for the 40 points.
